EDUCATION

University of Michigan

BFA Art & Design 2026

Central Saint Martins

Industrial & Product design
Study Abroad Semester

SKILL SET

Art + Design

Product and industrial design,
Prototyping, User research, UX/UI,
Sewing, Woodshop, Life Centered
Design, Sustainable Material
exploration, Thoughtful Critique,
3D modeling

LEADERSHIP

Mu Phi | University of Michigan

Vice President, Show Chair

Focused on administrative work for
a co-ed fraternity. Actively fought
for gender inclusivity to remain on
campus.

Adobe Ambassador

Represented Adobe in outreach to
campus organizations, advising on
strategies to better leverage the
Creative Studio for their projects
and initiatives

DESIGN EXPERIENCE

University of Michigan Productions

Props Artisan Jan 2025

- Collaborated with University staff to learn manufacturing skills
- Self-managed multiple projects simultaneously, consistently meeting fast-paced production timelines while adapting to changing priorities.
- Applied problem-solving and adaptability to rapidly prototype and refine objects using textiles, wood, and surface finishes

Student Org Theater

Props Master Oct 2025

- Directed a small team of artisans through all phases of prop design and production, from concept to final performance installation.
- Interpreted scripts to establish cohesive design direction and developed a detailed prop acquisition and build timeline.
- Balanced creative vision with budgetary limits by sourcing, repurposing, and fabricating materials through woodworking, painting, and University stock.
- Engineered and constructed large-scale stage props, including two 6'x6' canvases and an 8' easel, ensuring durability and stage-readiness.

Paul's Custom Canvas

Seamstress and Pattern Technician Aug 2024

- Produced precise patterns for custom covers using both legacy templates and new measurements, ensuring accurate fit
- Independently managed the industrial laser cut table to prepare complete cover sets for seamstresses under tight daily deadlines
- Executed cover and upholstery sewing tasks with high attention to measurement accuracy and detail, maintaining professional craftsmanship standards.
- Creatively problem solved for customer cover repairs
